DETAILED ACTION

1. This application claims benefit of the provisional application: 60/252,513 with a filing date 11/28/2000.
2. Amendment including a filed terminal disclaimer, dated June 18, 2004, is acknowledged. Claims 1-37 are pending in the application.

Responses to Amendment

3. Since the filed terminal disclaimer has been approved, therefore the rejection of claims 1-37 under obviousness-type double patenting has been overcome.

Reasons for Allowance

4. The following is an examiner's statement of reasons for allowance:

Claims 1-37 are neither anticipated nor rendered obvious over the art of record, and therefore are allowable. This invention relates to salt forms of 3-(4-bromo-2,6-difluoro-benzyloxy)-5-[3-(4-pyrrolidin-1-yl-butyl)-ureido]-isothiazole-4-carboxylic acid. The closest reference is Larson et al. US 6,235,764, discloses isothiazole derivatives useful as anticancer agents. The difference between instant claims and reference is that the specific salts of instant compounds has not been taught by Larson et al. Suggestion for modification of above reference to obtain the specific salts of instant compounds has not been found. Claims 1-37 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
